

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The prior art of record discloses a package containing a food product but fails to disclose an absorbent pad comprising an upper web comprising a flexible film, a liquid – permeable lower web comprising nonwoven fiber having a hydrophilic composition, and an absorbent layer between the upper web and the lower web, wherein the upper and lower webs each extend outward of the absorbent layer, the upper and lower webs being attached to one another around an entire perimeter portion of the pad, with the upper and lower webs together surrounding and containing the absorbent layer, and the package further comprising modified atmosphere or vacuum. The phrase 'upper web' is interpreted to mean that Figure 2, in which the upper web is above the lower web and the absorbent layer, is the only orientation in which the absorbent pad will be used.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
